ROADMAP TO THE FUTURE 2035/2020 Strategic Plan

OUR GOAL:

To be recognized far and wide as a leading innovation community.

CURRENT PROGRAMS:

Quorum Port QED FirstHand ic@3401	PhaseIVentures Digital Health Accelerator Innovators Walk of Fame University City Keystone Innovation Zone (UC KIZ)
---	---

HOW WE'LL GET THERE:

OUR 5-YEAR PLAN FOR 2020

- Expand campus and improve engagement
- Improve and deliver superior service
- Create Think/Do/Share Tank
- Build a strong Science Center brand
- Expand convening and collaboration capabilities
- Increase fundraising

OUR VISION FOR 2035

- Improve and expand placemaking and programs
- \$100 million in revenue streams
- Grow campus from 1.5 million to 5.5 million sq. ft.
- Attract major corporations to University City
- Expand policy presence and influence
- Establish centers of research excellence
- Be a "best in class" collaborator and hub for innovation and entrepreneurship

KEY DIFFERENTIATORS:

Ex	Di	Ac	In
Excellence	Diversity	Access	Inclusion

IMPACT:

LOCALLY: Reinvigorating University City

NATIONALLY: Partnered with key shareholders, stakeholders, and business partners

FAR AND WIDE: Part of an active international network

NEXT STOP: MARS. The Science Center's logo will be on the first manned mission to Mars.

Welcome

JEANA

JEANA MOBLEY // GRAPHIC DESIGNER

HOME
WORK
ABOUT

Hello, my name is Jeana. Nice to meet you.

I'm a recent graduate from the Custom-Designed Major at Drexel University. The Custom-Designed major allows select students to create their own, interdisciplinary major at the university. My major, Design Studies, focused on Graphic Design, Printmaking, and Art History and Theory. My experience with multiple subjects gives me a well-rounded view of art and design that is evident in my work.

Inspiration for my work comes from contemporary art and design, as well as exploring new ways to create things. As a huge lover of art museums and galleries, I'm influenced by museums I've visited as a child in Pittsburgh, PA. When I'm not exploring artwork, I love making anything from laser cut jewelry to 3D printing my own typography.

In 2013-2014, I completed a six-month internship at the University City Science Center in Philadelphia, PA. During my internship, I worked with FirstHand as an Arts Program intern. In 2015, I completed a three-month Graphic Design internship at Philadelphia branding agency At Media, where I worked with clients such as HipCityVeg, Bar Bombon, and The Delaware River Waterfront Corporation. I am currently am a designer at Digitas Health, a creative health care agency in Philadelphia, PA, and am a freelance Graphic Designer.

INTERESTED IN WORKING TOGETHER?
